

MAVERICK - R (Residential)

The Maverick-R (Residential) is targeted for residential applications and provides the beauty and security of iron at an affordable price. This product is constructed with a 15 gauge channel and $\frac{5}{8}$ inch steel picket. Industrial drive rivets are used to attach each individual picket to the rail allowing the section to rack to your job specifications. These rivets provide the strength of a welded product without the rusting that accompanies them. The Maverick-R can rack up to 24 inches on a standard punch channel. The following styles are available in Maverick-R:

Aberdeen

Canterbury

Barcelona

Camden
