

# New England Arbors

*No place like home*

You've invited us into your gardens, your yards and your special moments for nearly two decades. You've shared images of beautiful weddings, relaxing backyards, memorial gardens and other treasured times. You've shared personal stories, given us testimonials, left reviews, and we are so grateful. New England Arbors wouldn't be at the top of our industry without the people who buy and enjoy our products. So thank you.

We've included a small fraction of the beautiful photos we have received from customers in this catalogue. Keep your eyes peeled for pictures marked 'customer image', you'll see some great installations in some gorgeous locations.

When we introduced our first product (The Lakewood Pergola) in our composite material (a mixture of vinyl and wood flour) our customers loved the look, and especially the convenience of such a modern material: Up close it looks like wood, while at the same time, eliminating the maintenance required with traditional wood.

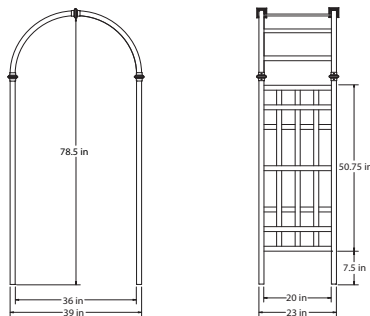

Our customers have asked for these products for years, and we're pleased to introduce two new products: The Savannah Trellis and the Sierra Arbor are the newest products in our composite line and their natural beauty is sure to compliment any setting.

For years we've had customers call our office for advice about larger pergolas. Getting them custom built locally was prohibitively expensive, and there was still the extensive upkeep. Wouldn't it be great to be able to attach two together to create a huge, yard enhancing game changer? We agreed. We walked many customers through combining two of our pergola kits together, so many in fact, that we decided to make it much easier and create a very large pergola kit.

The Regency Grande Pergola is a 12 x 24 Pergola that will change your yard for sure; creating a base for relaxing and entertaining. Even better- It's maintenance free, features a long warranty, and ships via UPS!
